Why claim your free listing

Live Finger Lakes · An independent, source-linked guide

A free listing on Live Finger Lakes is a public, source-linked page for your business. Claim it so you can keep the hours, specials, photos and events current. We never sell your contact details, and we never publish the email you use to claim.

Why claim?

- One listing appears on Live Finger Lakes, on its own place page, on partner town sites such as Hornell New York and Canisteo NY, and in the free open data feed that maps, apps and Ask FLX ONE read.
- It costs nothing. Free listings stay free.
- You control hours, specials, photos and events, after we review each update.
- We do not invent reviews, prices or hours. Every listing names a public source.
- These pages are independent guides, not government sites.

How do I add my business?

Go to livefingerlakes.com/partners/claim/ and fill in the form. We email a confirmation link from hello@livefingerlakes.com. After you click it, we review the request. We will email you when it is approved, with a link to update the listing.

How do I claim my listing?

Open your place page and choose “Is this your business? Claim it free,” or pick the listing on the claim form. Use an email at the same domain as your business website when you can. If you only have a personal inbox, we will call the published phone number or check another public source before approving, so nobody else can take over the listing.

How do I update my hours?

Once approved, we email a private update link, valid for 30 days. You can also request a fresh link from the claim page with the owner email we already have on file.
